

As a citizen and tax payer, I urge you to reject NAB's petition 04-160, to restrict programming to XM radio. In our society we should praise and support those who want to "push ahead" with developing technologies and not push laws to support those who want to sit back and stop or slow down change. I am an XM radio subscriber because I choose to listen to what I want, when I want! When I travel to major cities I don't want to spend time looking for stations with content such as traffic reports or weather, With my XM radio I know exactly where to tune to, all the time.

Thank you for listening,  
Clay Caldwell
